

SINGLE MWA PERCUTANEOUS ANTENNA FOR PLANAR COAGULATION

The following illustration and table depict the approximate size of an ablation zone that may be created by a single Evident™ MW Ablation Percutaneous Antenna energized at various power and time settings for use during planar coagulation. The shaded regions in the images represent the zone of tissue coagulation created around the antenna.

45 W	1:00	2:00
A	0.8 cm	1.2 cm
B	2.8 cm	3.4 cm
