

# Valleylab Electrosurgical Pencils

## A cut above the competition

### UNSURPASSED PERFORMANCE AND QUALITY

are the hallmarks of Valleylab electrosurgical pencils, and why Valleylab pencils have become the standard against which others are measured.

### ERGONOMIC DESIGN

provides the feel and balance of a high-quality surgical instrument, reducing the stress and tension on your hands during demanding procedures.

### IMPORTANT SAFETY FEATURES

like sealed switching components and our antirotation hex lock fitting help to ensure the integrity of the device, and the safety of both surgeon and patient.

### STANDARD FEATURES

on all Valleylab pencils include a removable 2.5 cm (1 in.) blade or needle electrode and attached cord with sturdy 3-prong connector. Most pencils also accept any standard 0.24 cm (3/32 in.) diameter electrode.

Innovations That Work

# Valleylab Disposable Pencils

A variety of choices to suit every preference

## Handswitching pencils (E2515, E2515H, E2516, E2516H)

---

are available with either button (E2516) or rocker switch (E2515) controls to accommodate the surgeon's preference. Switches have a high level of tactile feedback — surgeons can hear and feel the switch engage, preventing accidental activation of the device. Also available with the accessory holster (E2515H, E2516H) and with the AccuVac™ Smoke attachment (E2515HS, E2516HS).

## Footswitching pencils (E2504, E2504H)

---

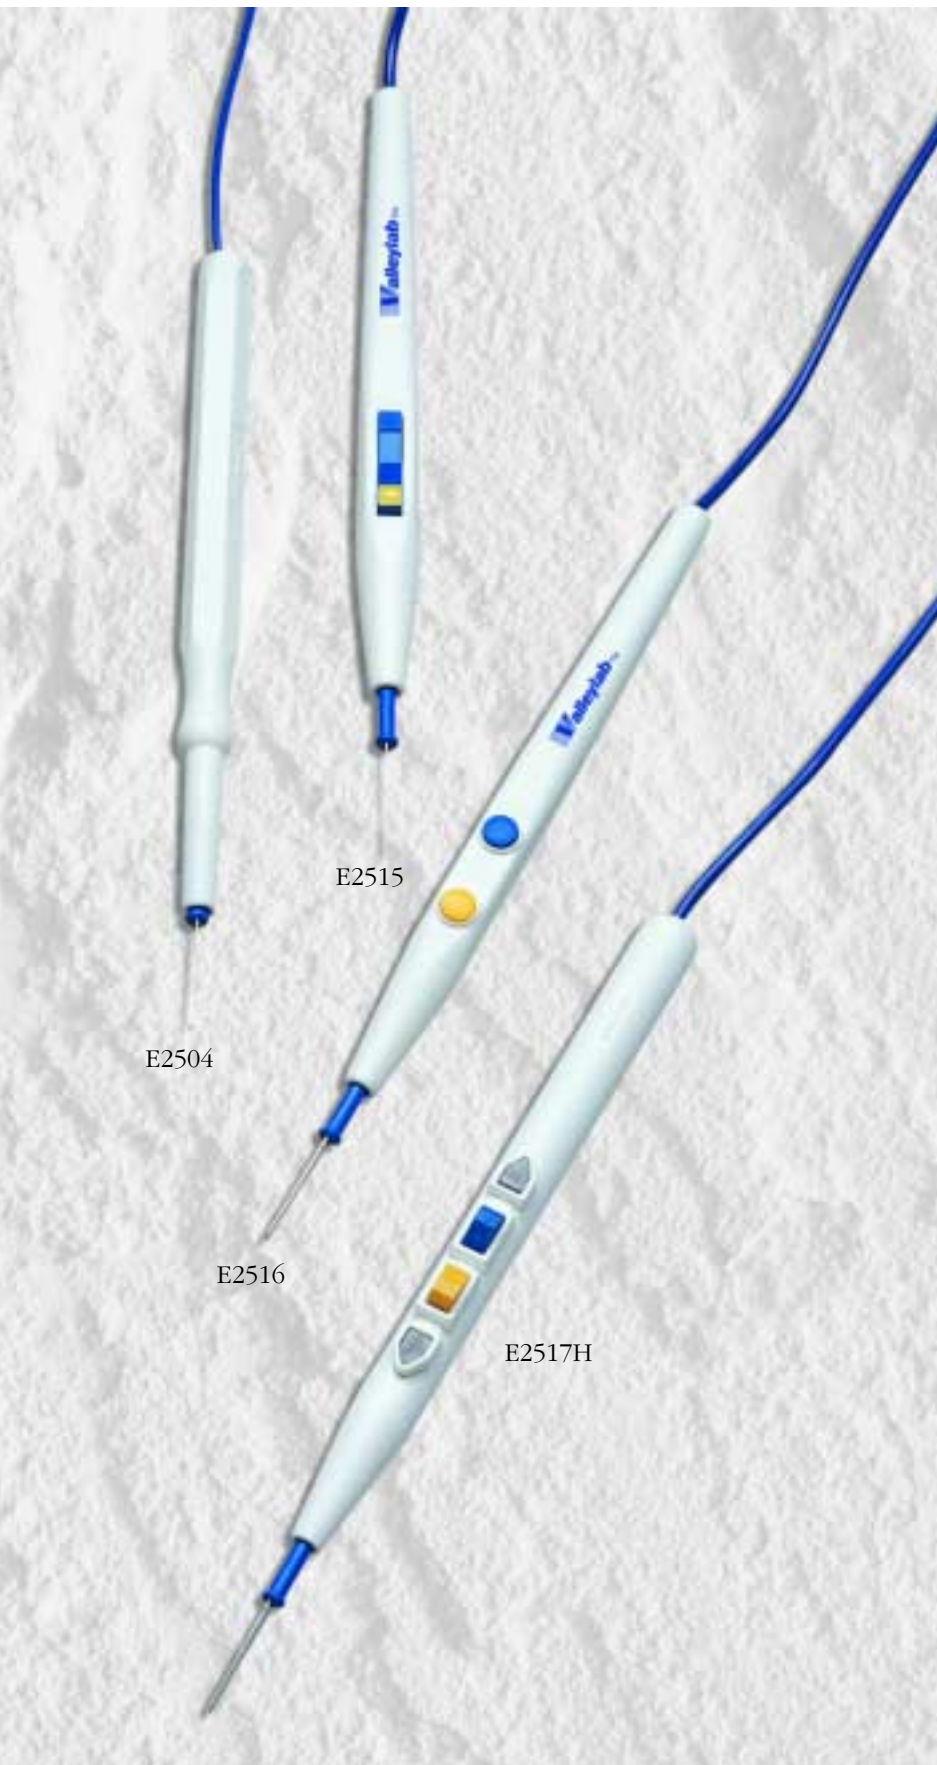

provide exceptional versatility for general electrosurgery procedures.

## Power Control pencil (E2517H)

---

enables the surgeon to adjust power settings from the sterile field, for a more rapid response to changing surgical conditions. Button controls adjust the cut and coag settings, triggering auditory cues and visual displays on the generator for instantaneous confirmation of settings.

*(For use with Force™ 2, Force™ 4 series, and Force™ 40 generators.)*

# Valleylab Pencils with Disposable Coated Electrodes

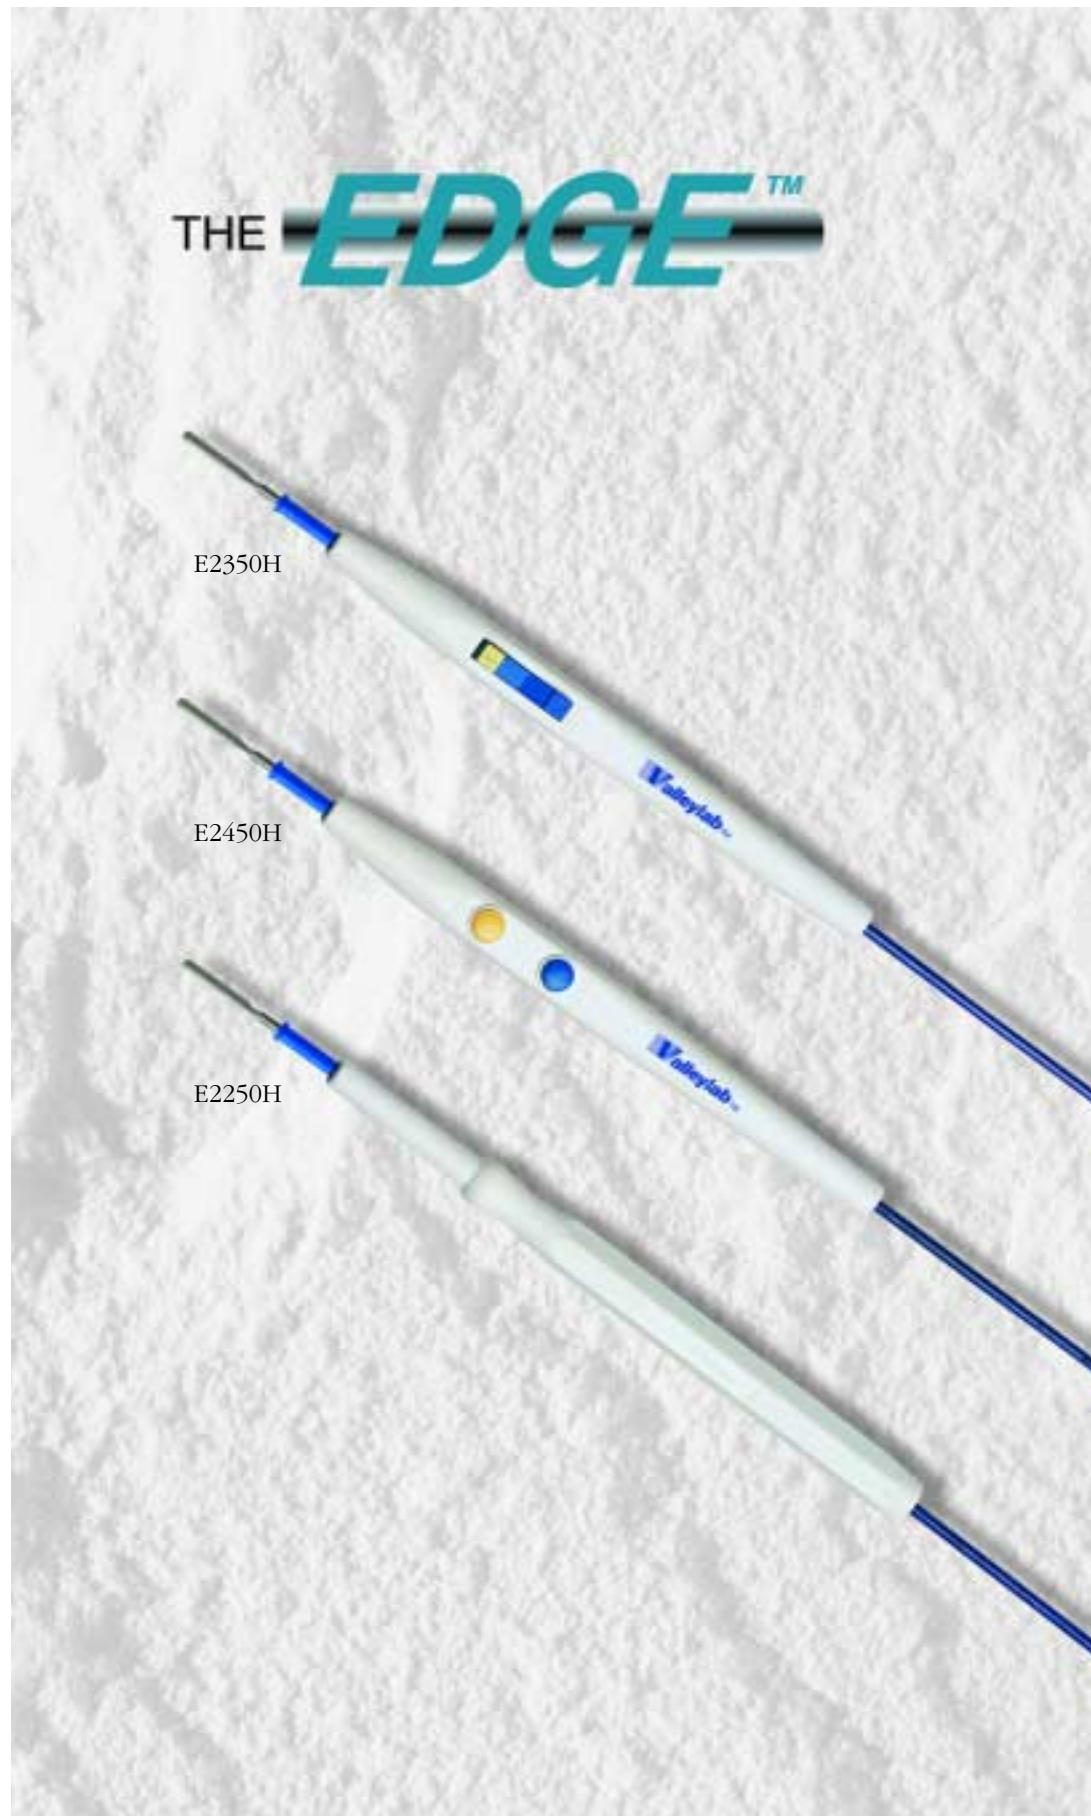

## The EDGE™ Coated Electrodes

provide uncompromised cut performance throughout a variety of procedures, no matter what type of tissue. The EDGE™ coated blade and coated needle electrodes provide cut performance like stainless steel—but with a clean advantage. No scraping required. Durable and bendable without compromising the integrity of the coating.

## Pencil Accessories

### Disposable Accessory Holster (E2400)

allows pencils to be safely and conveniently stored between uses, reducing the potential for injury caused by inadvertent activation.

# Order Information

| CATALOG NUMBER                                   | DESCRIPTION   | ORDER QUANTITY |
|--|---|----------------|
| <b>Sterile, disposable handswitching pencils</b> |   |                |
| E2350H   | Rocker switch with The EDGE™ Coated Blade, holster, 3.0 m (10 ft) cord  | 50 units/case  |
| E2350HS  | Rocker switch with The EDGE™ Coated Blade, holster, AccuVac™ Smoke Evacuation Attachment, 3.0 m (10 ft) cord  | 25 units/case  |
| E2450H   | Button switch with The EDGE™ Coated Blade, holster, 3.0 m (10 ft) cord  | 50 units/case  |
| E2450HS  | Button switch with The EDGE™ Coated Blade, holster, AccuVac™ Smoke Evacuation Attachment, 3.0 m (10 ft) cord  | 25 units/case  |
| E2515  | Rocker switch with disposable blade electrode, 3.0 m (10 ft) cord   | 50 units/case  |
| E2515H   | Rocker switch with disposable blade electrode, holster, 3.0 m (10 ft) cord  | 50 units/case  |
| E2515H-DB  | Rocker switch with disposable blade electrode, holster, 4.6 m (15 ft) cord  | 50 units/case  |
| E2515H-DA  | Rocker switch with disposable needle electrode, holster, 3.0 m (10 ft) cord   | 50 units/case  |
| E2515HS  | Rocker switch with AccuVac™ Smoke Evacuation Attachment, blade electrode, holster, 3.0 m (10 ft) cord   | 25 units/case  |
| E2516  | Button switch with disposable blade electrode, 3.0 m (10 ft) cord   | 50 units/case  |
| E2516H   | Button switch with disposable blade electrode, holster, 3.0 m (10 ft) cord  | 50 units/case  |
| E2516H-DA  | Button switch with disposable needle electrode, holster, 3.0 m (10 ft) cord   | 50 units/case  |
| E2516HS  | Button switch with AccuVac™ Smoke Evacuation Attachment, blade electrode, holster, 3.0 m (10 ft) cord   | 25 units/case  |
| E2517H   | Power Control Pencil with disposable blade electrode, holster, 3.0 m (10 ft) cord. For use with Force™ 2, Force™ 4 series, and Force™ 40 generators | 10 units/case  |
| <b>Sterile, disposable footswitching pencil</b>  |   |                |
| E2250H   | Footswitching pencil with The EDGE™ Coated Blade, holster, 3.0 m (10 ft) cord   | 50 units/case  |
| E2504  | With disposable hex lock blade electrode, 3.0 m (10 ft) cord  | 50 units/case  |
| E2504H   | With disposable hex lock blade electrode, holster, 3.0 m (10 ft) cord   | 50 units/case  |
| <b>Pencil Accessories</b>                        |   |                |
| E2400  | Disposable Accessory Holster  | 50 units/case  |
| E2401  | LectroBrasive™ Tip Cleaner  | 100 units/case |
